7. [REDACTED] - JGO) Received a call from Mike Lennon, Assistant to Representative Donald M. Fraser (D., Minn.), who requested help for the Congressman in identifying a statement attributed to President Truman in 1963 concerning limiting of the Agency's role to intelligence. Mr. Lennon said that the Legislative Reference Service of the House had been unable to identify the statement. I thanked him for the call and told him I would be back in touch tomorrow.

8. [REDACTED] JGO) Met with Harry Lambert, Assistant to Representative Glenn M. Anderson (D., Calif.), and discussed with him Representative Anderson's letter of 30 July to the Director concerning the maintenance of files of names of persons opposed to the Vietnam war. In brief I explained that we do not maintain such files and since we are prohibited by the National Security Act of 1947 from internal security activities we are not in a position to determine the need for such files or the constitutionality of such practices. It was also pointed out that such a practice would appear to have little merit since the House Committee on Internal Security has published several volumes of testimony on this very subject. Mr. Lambert was most appreciative and advised that no further action would be necessary on Representative Anderson's letter, that they are engaged in a routine action generated by a constituent inquiry.
